

Gulfstream GII/GIIB

Professional Pilot and Technician Training Programs

Experienced
Instructors,
Superior
Training
Technology

FlightSafety and Gulfstream have worked together for more than 40 years to develop comprehensive pilot and maintenance technician training programs for every Gulfstream business model produced. Our highly qualified and experienced instructors, advanced-technology flight simulators and integrated training systems help ensure proficiency and safety. Gulfstream GII training is available at FlightSafety's Learning Center in Dallas/Fort Worth, Texas.

Innovation With One Purpose: Training Corporate Aviation Professionals for Safety and Proficiency

FlightSafety International is the world's leading aviation training organization. The leader in experience. The leader in technological innovation. The leader in global reach. FlightSafety serves the world's aviation community providing total aviation training for pilots, maintenance technicians and other aviation professionals. We serve business, commercial, general and military aviation with training for virtually all fixed-wing aircraft and helicopters. We live, breathe and ThinkSafety.

FlightSafety enjoys a strong relationship with Gulfstream that is built around our training programs for the full line of Gulfstream business jets. FlightSafety Learning Centers offer business aviation pilots and maintenance technicians of Gulfstream GII and GIII aircraft the resources to achieve proficiency and safety. All of our Gulfstream training programs meet the same high standards, regardless of aircraft model. Learning Centers for Gulfstream business aircraft are located in Dallas/Fort Worth, Texas; Greater Philadelphia/Wilmington, Delaware; London Farnborough, United Kingdom; Long Beach, California; and Savannah, Georgia.

Gulfstream GII Training Program Highlights

- We deliver training on the world's only Gulfstream GII full flight simulator.
- FlightSafety has an excellent working relationship with Gulfstream Aerospace Corporation, developed over 40 years serving as Gulfstream's factory-authorized trainer. Gulfstream fully endorses FlightSafety's training programs.
- Bring your Gulfstream GII for maintenance by General Dynamics Aviation Services and Gulfstream while you train with us.
- We periodically improve and upgrade our Gulfstream GII simulator to meet the demands of the fleet.
- Gulfstream conducts regular briefings with FlightSafety to ensure that training programs are up to date and incorporate the latest information from the worldwide Gulfstream fleet.
- Our updated instructor stations include a large database of airports, including the Anytown function.

Gulfstream GII Training Program Highlights

(continued from previous page)

- Pre-Study material available online through your myFlightSafety portal ensures that you're well prepared when training begins.
- Our DFW simulator features a recently upgraded motion base.
- DFW offers the sequence of courses required to earn the coveted FlightSafety Master Technician designation.
- Our Dallas/Fort Worth Learning Center is your sole source for professional GII maintenance training. Courses include Initial, Update, Engine Run & Taxi, Advanced Troubleshooting and Operational Maintenance Procedures.
- Dallas/Fort Worth offers Total Technical Training for maintenance technicians. This exclusive training program is a joint effort that leverages Gulfstream's knowledge of aircraft design, manufacture and support with FlightSafety's training expertise.
- Our 200,000-square-foot Dallas/Fort Worth Learning Center includes dining, workout facilities with lockers and showers, large conference rooms, large upstairs atriums for meetings and meals, break rooms with couches and satellite televisions, and executive conference rooms with teleconferencing capabilities.

Your FlightSafety Learning Center Experience

- 1 Check-In/Orientation** Arriving at the center, you receive a warm greeting and a welcome packet of information about the specifics of your stay.
- 2 Classroom Instruction** Receive thorough classroom training from experienced, dedicated instructors supported by effective, state-of-the-art training devices.
- 3 Peer Interaction** Enjoy daily give-and-take with your peers, an important and stimulating additional source of information.
- 4 Self-Paced Learning** While you're with us, take advantage of opportunities to review topics or learn new subject matter through a variety of self-paced learning materials.
- 5 Simulator Briefings** Prior to each simulator flight, review with your instructor the procedures and specific objectives of that particular session.
- 6 Simulator Training** Coached by your highly qualified instructor, practice and refine the flight-deck procedures requisite to your course of training.
- 7 Simulator Debriefings** After each simulator flight, debrief with your instructor to measure your progress and set your learning priorities.
- 8 Results** Complete your training knowing you have the information and skills your job demands – because training doesn't stop until you've reached proficiency.

The FlightSafety Customer Training System

The FlightSafety Customer Training System provides professional, safety-centered training that leads to proficiency, heightened decision-making and leadership skills.

Inside the Most Trusted Name in Training

Global Leadership FlightSafety delivers more than one million hours of professional aviation training each year. We operate the world's largest aviation training network, with Learning Centers and training locations around the globe. We are honored to serve as the authorized training provider for the majority of business aircraft manufacturers.

Expert Instructors FlightSafety fields more than 1,400 of the industry's best instructors, each devoted to ensuring that our Customers are trained to proficiency. Each with the experience and credentials necessary to help our Customers perform at the highest levels of safety.

Strategic Locations. Worldwide Vision. We train to best meet our Customers' needs, wherever they may be. This is why FlightSafety's Learning Centers are strategically located adjacent to the major aircraft manufacturers or in other areas that best serve our Customers. Many centers offer training for a wide variety of aircraft types, while others are dedicated solely to the aircraft of one manufacturer.

In keeping with our role as the global leader in aviation safety, our training programs and flight simulators are qualified by international regulatory agencies, including the FAA, EASA, CAAC and Transport Canada.*

Flight Training	If required	If required	If required

Systems Integration Training - This is the integration of CRM principles, flight briefing, and aircraft systems checklist procedures.

Simulators – The Long Beach Center provides Gulfstream II Initial and Recurrent ground school training utilizing a Gulfstream III AC/DC convertible simulator. DFW Learning Center operates the only Gulfstream II simulator in existence.

Simulator Check – Course length does not include simulator check days, if required.

Flight Training – If requested, all flight training will be conducted in a customer-provided aircraft and may add additional time to the course length. All insurance requirements must be met and an additional fee may be charged. This should be requested when the class date is booked.

Differences – Provided within the G-1159 series for no additional charge.

Course Dates – For course dates, please visit our website at flightsafety.com or contact the Learning Center listed below.
